

The 3rd Generation pH Sensor from the Same Mind that brought you the first 2.

BARBEN
Analyzer Technology, LLC

Hi-pressure, Hi-temperature 4-electrode conductivity sensor

**SX 546 - Boiler Blow Down
4-Electrode Conductivity Sensor**

900 PSIG @ 500⁰F

4-Electrode, ultra-stable, coating tolerant design

Body and electrodes - SS316

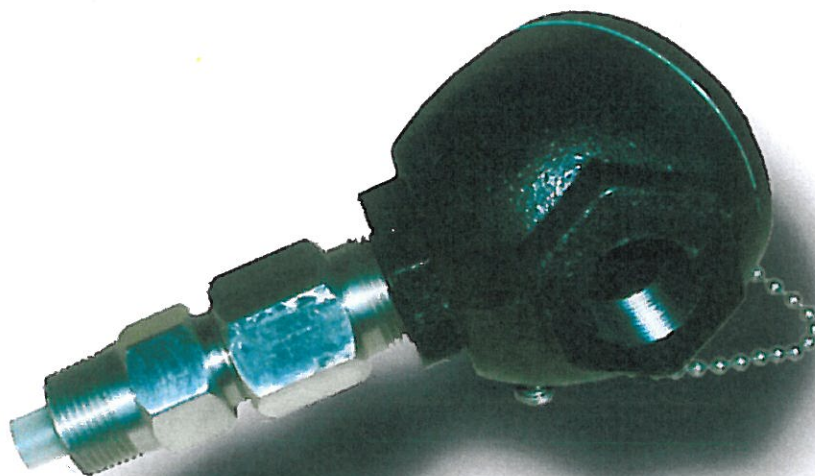

Insulator - industrial sapphire

Compression seal - PEEK

Integral terminal block for cable connection

3/4" MNPT process connection

3/4" FNPT conduit port

Compatible with most transmitters for Electrode Conductivity
